TASK-6:

Create web pages and use CSS properties, and bootstrap properties like carousel.
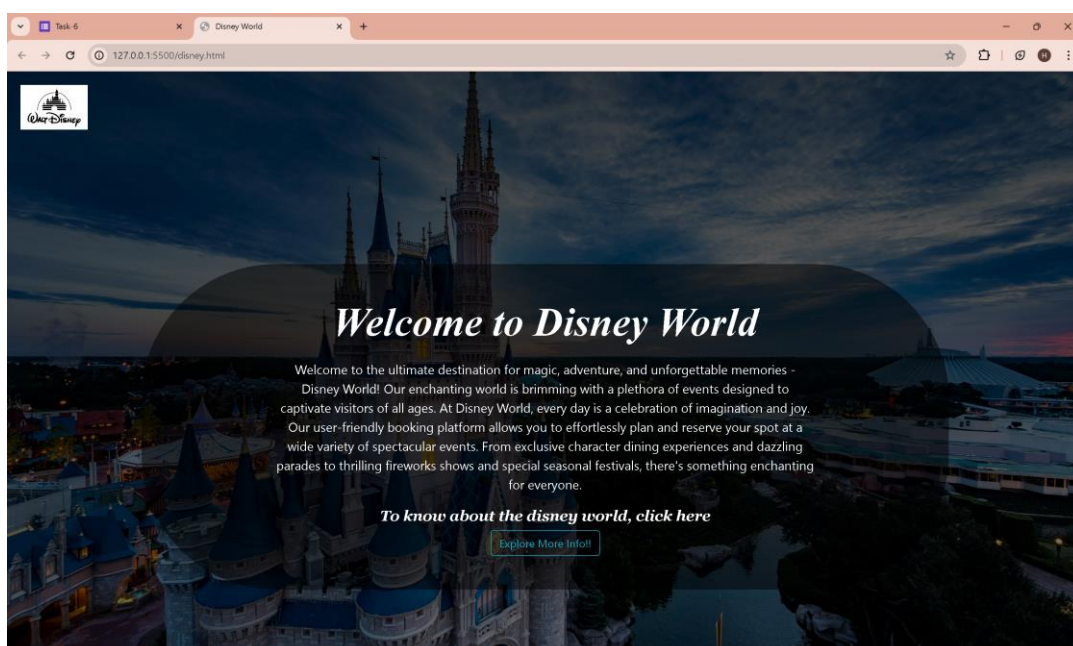

Home page:

On this home page, there are two sections and CSS properties and on click, properties are used. Here is the code and output:

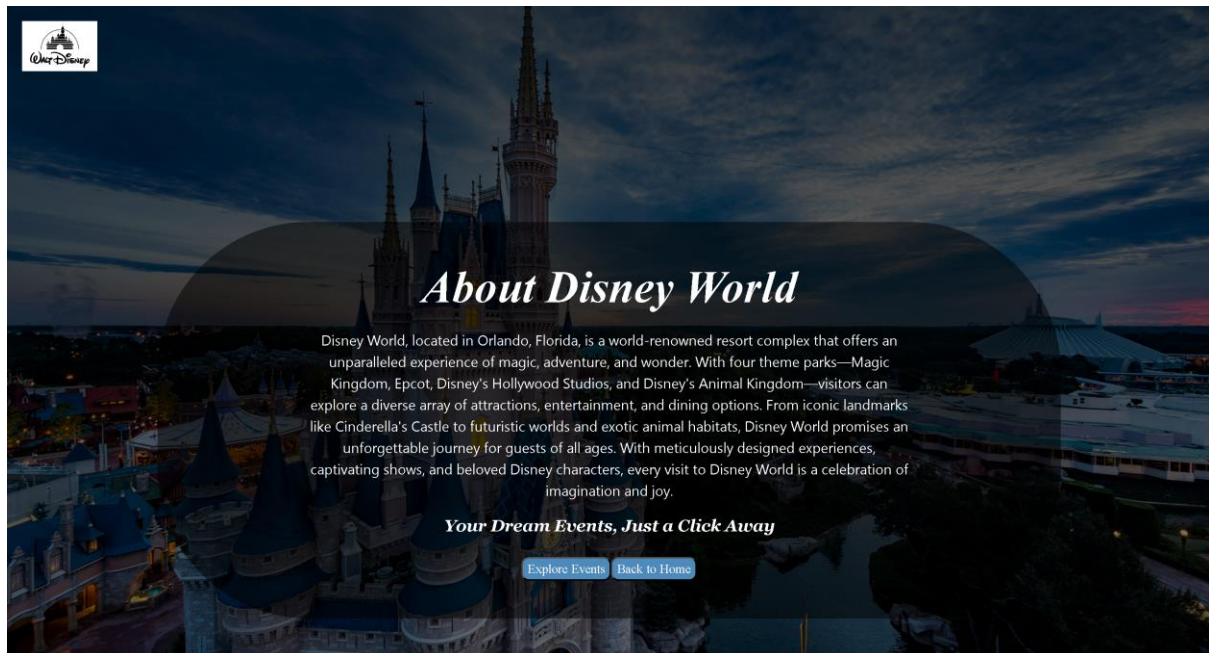

Output:

1st section:

On clicking explore more info, next section is displayed:

Events page:

Code:

```html
<!DOCTYPE html>
<html>
    <head>
        <title>Events page</title>
        <link rel="stylesheet" href="disney.css">
        <link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.5.2/css/bootstrap.min.css" integrity="sha384-JcKb8q3iqJ61gN

        <script src="https://stackpath.bootstrapcdn.com/bootstrap/4.5.2/js/bootstrap.min.js" integrity="sha384-B4gt1jrGC7Jh4AgTPSdUtOBvf08shuf57
    </head>
    <body>
        <div>
            <script type="text/javascript" src="https://d1tgh8fmlzexmh.cloudfront.net/ccbp-static-website/js/ccbp-ui-kit.js"></script>
            <div class="background">
                <a href="disney.html"><button type="button" class="btn btn-outline-secondary">Back</button></a>
                <img src="logo.png" class="logo">
                <div>
                    <center><h1 class="heading">Upcoming Events in Disney World</h1></center>
                    <div class="bg1">
                        <div class = "bg1 d-flex flex-row">
                            <div>
                            <h1 class="heading_event">Mickey's Magical Parade</h1>
                            <p class="para_style1">Join Mickey and friends in a magical parade filled with music, dance, and enchanting floa
                            <a href="mickey.html"><button class="bn_style1">Join Now</button></a>
                            </div>
                            <div>
                                <img src="mickey.jpg" class="events_pic1">
                            </div>
                        </div>
                        <div class = "bg1 d-flex flex-row">...
                        </div>
                        <div class = "bg1 d-flex flex-row">...
                        </div>
                    </div>
                </div>
            </div>
        </div>
    </body>
</html>
```

Output:

By clicking on the buttons , the user will redirect to the respective event page:

Mickey.html:

Code:

```
10      </head>
11      <body>
12          <div>
13              <script type="text/javascript" src="https://d1tgh8fmlzexmh.cloudfront.net/ccbp-static-website/js/ccbp-ui-kit.js"></script>
14              <div class="background">
15                  <div class="bg_card d-flex flex-row justify-content-left">
16                      <img src="logo.png" class="logo">
